

Contour Electronics Ltd is the official UK and Ireland Sales Partner for Provertha Connectors, Cables & Solutions GmbH. We provide the full range of high performance D-sub connector solutions together with PROFIBUS and CAN-Bus connector systems.

With TS 16949 Automotive approval and ISO 9001 certified quality management systems, Provertha also offer cable assembly and full contract manufacturing services from their production facilities in Hungary.

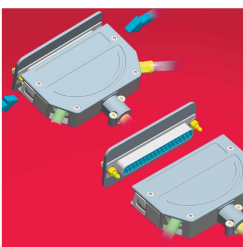

### I-NET BUS CONNECTORS PROFIBUS/CAN-BUS

- Innovative plug and play M12 system
- Full EMC/RFI proof 360° shielding
- Profibus 12 MBit/s
- CAN-Bus 1 MBit/s
- Programming diagnosis option with 2nd D sub
- Easy field assembly

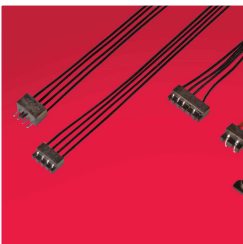

### I-NET ETHERNET RJ45

- Designed for future applications of up to 10 Gbit
- Light duty series in protection class IP20
- Heavy duty series for waterproof conditions to IP67
- EtherNet/IP bayonet metal – plastic – push/pull
- Profinet metal locking lever

### QUICK LOCK D HOODS

- Easy and fast one handed operating latch
- Automatic self-locking with audible click
- Full EMC/RFI 360° shielding
- Vibration proof strain relief system
- Metallised-plastic, plastic and die cast hood options

### WIRECLIP – WIRE TO BOARD SYSTEM

- Efficient cost effective and space saving wire to board solution
- Vibration proof wire to board
- Approved for the Automotive industry
- Failure resistant 100% tested cables
